GEOMORPHOLOGY

Contents Volume 29, 1999

Vol. 29, Nos. 1–2

SPECIAL ISSUE

NEW TECHNIQUES IN GEOMORPHOLOGY

Preface vii

Process Measurement

The application of computational fluid dynamics to natural river channels: three-dimensional versus two-dimensional approaches
S.N. Lane, K.F. Bradbrook, K.S. Richards, P.A. Biron and A.G. Roy 1

Acoustic Doppler current profiler measurements in coastal and estuarine environments: examples from the Tay Estuary, Scotland
S.F.K. Wewetzer, R.W. Duck and J.M. Anderson 21

Application of thermal anemometry and high-frequency measurement of mass flux to aeolian sediment transport research
G.R. Butterfield 31

Video measurement of swash zone hydrodynamics
M. Foote and D. Horn 59

Monitoring Change

Integrating aerial videography and digital photography with terrain modelling: an application for coastal geomorphology
D. Livingstone, J. Raper and T. McCarthy 77

Monitoring changing position of coastlines using Thematic Mapper imagery, an example from the Nile Delta
K. White and H.M. El Asmar 93

River channel planform change: software for historical analysis
K.F. Leys and A. Werritty 107

Applications of differential GPS in upland fluvial geomorphology
D.L. Higgitt and J. Warburton 121

The limitations of using ^{137}Cs for estimating soil redistribution in semi-arid environments
A. Chappell 135

Dating Change

Luminescence dating applications in geomorphological research
S. Stokes 153

Quality assurance in luminescence dating
M.L. Clarke, H.M. Rendell and A.G. Wintle 173

Newsletter of the IAG 187

Vol. 29, Nos. 3–4

Research Papers

Recent landscape history in arid western New South Wales, Australia: a model for regional change
P.C. Fanning 191

Anabranching rivers on the Northern Plains of arid central Australia
S. Tooth and G.C. Nanson 211
Mineralogical characterization and transport pathways of dune sand using Landsat TM data, Wahiba Sand Sea, Sultanate of Oman
P.P. Pease, G.D. Bierly, V.P. Tchakerian and N.W. Tindale 235
Gypsum karst features as evidence of diapiric processes in the Betic Cordillera, Southern Spain
J.M. Calaforra and A. Pulido-Bosch 251
Field observations of a debris flow event in the Dolomites
M. Berti, R. Genevois, A. Simoni and P.R. Tecca 265
The nature of small-scale flooding, muddy floods and retention pond sedimentation in central Belgium
G. Verstraeten and J. Poesen 275
Downstream variation in stream power
A.D. Knighton 293
Quantifying geomorphic and riparian land cover changes either side of a large flood event using airborne remote sensing: River Tay, Scotland
R.G. Bryant and D.J. Gilvear 307
The disruption of Grassy Creek: implications concerning catastrophic events and thresholds
D.F. Ritter, R.C. Kochel and J.R. Miller 323
An analysis of an arctic channel network using a digital elevation model
J.P. McNamara, D.L. Kane and L.D. Hinzman 339

Contents Volume 29, 1999 355
